

ARCHITECTURE & INTERIOR DESIGN

ABOUT US

البيت العربي للهندسة هو مكتب تصميم معماري وتصميم داخلي، أُسِّس ويُدار من قبل المهندس المعماري غسان فنري، ويهدف إلى تقديم حلول تصميمية متكاملة تجمع بين الجمال المعماري، الوظيفة العملية، والهوية الخاصة بكل مشروع.

نؤمن بأن العمارة ليست مجرد مبانٍ، بل تجربة متكاملة تعكس أسلوب حياة المستخدم وتفصيله اليومية. لذلك نعمل على تصميم مشاريع سكنية وتجارية بدراسة دقيقة للمساحة، الإضاءة، المواد، والتفاصيل، مع الالتزام بأعلى معايير الجودة والابتكار.

نحرص في البيت العربي للهندسة على تحويل الأفكار إلى واقع ملموس، من خلال رؤية معمارية واضحة، وإشراف مهني يضمن تنفيذ التصميم بروح الفكرة الأصلية.

Arab House Arc is an architecture and interior design studio founded and led by architect Ghassan Fanari, specializing in delivering integrated design solutions that balance architectural aesthetics, functional efficiency, and the unique identity of each project.

We believe that architecture is more than just buildings—it is a complete experience that reflects the user's lifestyle and everyday details. For this reason, we approach residential and commercial projects through careful study of space planning, lighting, materials, and architectural details, while maintaining the highest standards of quality and innovation.

At Arab House Arc, we transform ideas into tangible realities through a clear architectural vision and professional supervision, ensuring that each project is executed with integrity and true to its original design concept.

WE HAVE EVERYTHING YOU NEED

كل ما تحتاجه في مشروعك، تجده هنا.
حلول متكاملة في التصميم المعماري والداخلي، تُنفَّذ باحترافية عالية واهتمام
حقيقي بالتفاصيل، من الفكرة حتى الإنجاز.

*Everything your project needs, you'll find here.
Comprehensive architectural and interior design solutions, delivered with a
high level of professionalism and genuine attention to detail—from initial
concept to final execution*

PROJECTS

The background features a series of elegant, flowing waves in shades of deep red and gold. The waves originate from the right side and curve towards the left, creating a sense of movement and depth. The colors transition smoothly, with the gold appearing as highlights within the red waves.
